Code of Ethics to check malpractices and plagiarism in Research

Ethics is the most important components of the academic activities in teaching and research. Teaching and research forms a novel combination of knowledge transfer which needs freedom to express the knowledge. Freedom in the academic process to express the knowledge and invention in the most ethical way. It include the freedom to inquire for innovation of new things in subject that encourage intellectual concern, to present findings, to publish data and conclusions without control or censorship and to teach in the manner they consider professionally appropriate. This requires integrity with the teaching and research. The integrity can be expressed in terms of five principles as honesty, trust, fairness, respect, responsibility, legality and dissemination.

Honesty

Academician should work for the quest for truth, knowledge, scholarship and understanding by requiring intellectual and personal honesty in learning, teaching and research.

Trust

An academic community should foster a climate of mutual trust to encourage the free exchange of ideas and enable all to reach their highest potential.

Fairness

Academician should look for fairness in institutional standards, practices and procedures also in interactions between members of the community.

Respect

Academician should promote respect among students, staff and faculty: respect for self, for others, for scholarship and research, for the educational process and intellectual heritage.

Responsibility

Academician should support and adopt high standards for learning, teaching and research and also should promote academic integrity among all members of the community.

Legality

Suman Ramesh Tulsiani Charitable Trust's
SUMAN RAMESH TULSIANI TECHNICAL CAMPUS
FACULTY OF ENGINEERING

Approved by All India Council for Technical Education, Recognized by Govt. of Maharashtra
Affiliated to Savitribai Phule Pune University and Maharashtra State Board of Technical Education
College Code : EN6767, SPPU Code : CEGP019380, MSBTE Code : 1729

Academician should observe valid legal norms related to the conduct and publication of research particularly in relations to copyright, the intellectual property rights of third parties, the terms and conditions regulating access to research resources and the laws of libel.

Communication

Academician should seek to make the results of its research as widely and as freely available as possible.

With respect to the above principles of integrity, institute follows following code to ethics to check malpractices and plagiarism in Research.

Plagiarism: Plagiarism is defined as the intentional or unintentional use of another author's ideas, theories, models, equations, conclusions, research without proper attribution to the original source. Plagiarism is measured as one of the most serious "wrongful appropriations" in publication ethics. All submitted manuscripts are reviewed with the goal of determining if plagiarism has taken place and, if so, to what extent. If it is determined, the author(s) is notified promptly to the author for improvement (if it is less than 10%) with the statement of observations and renunciation. Authors of work containing plagiarism will be prohibited from publishing for an allotted period or indefinitely, at the publisher's discretion.

Authors must ensure that the work done and written by the author is the original work. Author should also ensure that the manuscript has not been published elsewhere. The original work submitted should represent his/her/ their contribution and not been copied from other work without citing. Any work or words of other authors, contributors, or sources (including online sites) should be appropriately credited and referenced. An author should agree to the license agreement prior to the submission of the article.

Editors must ensure a fair peer-review of the submitted articles for publication. Editor should not have any interest conflict between the author and editorial and review personnel. Editor should ensure the confidentiality of reviewed article before publication.

Suman Ramesh Tulsiani Charitable Trust's
SUMAN RAMESH TULSIANI TECHNICAL CAMPUS
FACULTY OF ENGINEERING

Approved by All India Council for Technical Education, Recognized by Govt. of Maharashtra
Affiliated to Savitribai Phule Pune University and Maharashtra State Board of Technical Education
College Code : EN6767, SPPU Code : CEGP019380, MSBTE Code : 1729

Reviewers must evaluate manuscripts without any bias for the research article. Reviewer should ensure that the all the information related to submitted manuscripts is kept as confidential. Any type of infringement and plagiarism from author's side should be informed to Editor-in-chief by Reviewer. Objectivity and clarity in opinion should be maintained by the Reviewer.

To perform above stated tasks, institute has Central Research Committee. The committee performs following work:

1. Submission of research article to Central Research Committee (CRC).
2. Review of article for plagiarism check.
3. Recommendations by CRC for publication of research article.
4. Submission of article for publication with Copy Right Form
