1. **Title of Practices:**

   E-learning

2. **Objective of Practices:**

   1. To enrich the quality of teaching and learning process.
   2. To meet the needs of students.
   3. To improve the operating efficiency and efficacy.
   4. To increase interface usability and time adaptability so that learners are more engaged in the learning process.

3. **The Context:**

   E-learning is technology facilitated learning which takes place either computer assisted learning in physical classroom or in online mode. The learning process generated through engagement with information communications technologies, facilities, and support is known as e-learning.

4. **The Practices:**

   We are using **E- Learning** in following way

   1. **Learning Management system (LMS)** - LMS has become popular amongst educationists because of its strengths and advantages provide the better access to educational resources from outside the institution on a global and instant basis.
   2. **E-Learning** -Increased and flexible interaction with student through domain e-mail and discussion forums.
   3. **Online Examination -** Online Aptitude Test and Subjective Test for competitive exam like Gate open for 24 x 7 for all students.
   4. **LinkedIn –** LinkedIn cultivates professional network by connecting current and former students, entrepreneurs and recruiters.
   5. **Google Meet**- G-meet gives teacher's face-to-face interaction with their students. This is the best alternative to teaching from a physical classroom, user friendly, and easily accessible from anywhere. Mentor can increase interactions with students, parents, guardians and fellow faculty members - across a secure platform.

6. **Google Classroom –** Google classroom or paperless classroom is a great and flexible way to create class, upload assignments and continuous evaluation. This is reliable tool for classroom management**.**

5. Evidence of Success:

For effective working environment, all concern authorities are connected to each other through restricted channels. Students can obtain study material from anywhere in the world and anytime without travelling physically. Through a single login, students can apply for multiple test series without filling the same information again and again. Use of E- Governance reduces most of the paper works so that it becomes eco-friendly.

Fwd: 12,000+ work from home internships for your students | An initiative by AICTE & Internshala Inbox ×

SRTTC TPO <tpo@srttc.ac.in> Wed, Apr 15, 2020, 5:11 PM

to alldegreediploma2020, DESH, Principal, HOD, HoD, HOD, Bhavesh, Chetan, Jitendra, Anil, SRTTC, allstaff

Dear All,

Greetings from Suman Ramesh Tulsiani !!!

I would like to inform you all that **Internshala's initiative 'Chalo India, Let's Work from Home' is live on the Internshala website**. Under this initiative, Internshala is offering over 12000 work from home internship opportunities for all the students of Suman Ramesh Tulsiani Technical Campus, so that they can do an internship while practicing social distancing, and stay safe during this COVID-19 pandemic. All students can visit here to apply now - **internshala.com/i/VI-24232**.

Thanking You
